Background Information

CERATH Development Organization (CDO) is implementing the 4-year fisheries management intervention dubbed the Power to the Fishers (PTF) project, which is funded by the European Union (EU) under the Civil Society Organization in Research and Innovation for Sustainable Development program (CSO-RISE). The goal of the Power to the Fishers project is to enhance the socio-economic livelihoods of fishing communities within selected districts of Ghana's coastal savannah zones. The main beneficiaries of the project are fish processors (mostly) and fishermen in fishing communities of Awutu Senya, Effutu, Ekumfi, Gomoa West and Shama districts of Ghana. This project contributes to the overall vision of the Civil Society Organizations in Research and Innovation for Sustainable Development (CSO-RISE) through community empowerment and capacity building towards inclusive growth and reduction of social inequalities.

The specific objectives of the project are:

- Engage stakeholders and value chain actors to disseminate information on climate change and other contemporary issues affecting the fishery sector and coastal ecosystems.
- Enhance the knowledge and adoption of improved, environmentally friendly and cost-efficient fish processing technologies.
- Build the capacities of target groups on appropriate fishing & business practices, environmental protection, climate change, and health & safety.
- Forge strategic partnerships between social protection entities and the target groups
- Document project outcomes and disseminate for learning and scaling.
